EDUCATION

Motilal Nehru National Institute Of Technology Allahabad

Bachelor of Technology in Computer Science and Engineering

CGPA: 8.36 (till 6th Sem.)

2023 - Present

Holy Angels' School, Shahjahanpur

Intermediate, ISC Board

Percentage: 88.4

2023

Holy Angels' School, Shahjahanpur

High School, ICSE Board

Percentage: 85.2

2021

Experience

LITSS, Department of IT, Lakshadweep (Govt. of India)

Software Developer Intern

Nov 2025 - Feb 2026

Remote, India

- Contributed to the initial prototyping and UI/UX design of the official Lakshadweep Tourism Website, ensuring an intuitive and seamless user experience.
- Implemented a secure authentication system and designed the foundational database schema for efficient data management.
- Collaborated with the team at LITSS to integrate frontend features using Next.js, successfully meeting all project milestones within the timeline.

PROJECTS

ModelSmith | PyTorch, Optuna, FastAPI, Celery, Redis, Gemini LLM, Streamlit

Mar-Apr 2026

- Managed a 10-member team while acting as lead architect for an asynchronous, end-to-end AutoML platform that automates feature engineering and the dynamic training of PyTorch neural networks.
- Developed a distributed training pipeline using FastAPI, Celery, and Redis to execute ML workloads asynchronously and improve system scalability.
- Implemented DynamicMLP with Optuna (TPE) hyperparameter optimization to automatically tune network architecture, learning rate, regularization, and training parameters.
- Integrated Gemini LLM to convert natural-language requirements and dataset metadata into constrained hyperparameter search spaces for guided model optimization.

InterviewForge | Next.js, Spring Boot, FastAPI, PostgreSQL, Qdrant, Gemini LLM

June 2026

- Built a full-stack AI interview preparation platform that conducts personalized mock interviews by analyzing candidate resumes and target job descriptions.
- Architected a microservices-based system using Spring Boot and FastAPI, integrating PostgreSQL, Qdrant vector database, and Gemini LLM for question generation, answer evaluation, and report generation.
- Designed an AI evaluation engine that scores candidate responses across technical accuracy, communication, depth, and completeness, generating actionable feedback and learning roadmaps.

ACHIEVEMENTS

- Specialist** on Codeforces (max. Rating, 1421).
- Globally ranked **1360**, among 26,000+ participants in LeetCode (Weekly Contest 446).
- Globally ranked **2658**, among 34,000+ participants in Codeforces Round 1011 (Div. 2).
- Semi-Finalist** in Softthalon, a coding event held during Avishkar 2k24 (the technical fest of MNNIT Allahabad).
- Secured **8th** position out of 300+ teams in **CodeStart 8.0**, a team-based competitive programming contest held at MNNIT Allahabad.

TECHNICAL SKILLS

Languages: C++, Java, JavaScript, SQL

Frameworks: Spring Boot, FastAPI, Next.js, PyTorch

Databases: PostgreSQL, MongoDB

Developer Tools: GitHub, IntelliJ IDEA, Postman, VS Code

Soft Skills: Leadership, Time Management, Problem Solving, Team-Work

CODING PROFILES

LeetCode | Codeforces

POSITION OF RESPONSIBILITY

- Member, **Cricket Club, MNNIT Allahabad** - Participated in tournaments and club training

Oct 2023 - April 2024
