Education

Motilal Nehru National Institute of Technology, Allahabad <i>Bachelor of Technology in Computer Science and Engineering</i>	2023-Present CPI - 8.10 (till 6th Semester)
Holy Angels' School, Shahjahanpur <i>12th - Indian School Certificate (I.S.C)</i>	2023 Percentage - 87
Holy Angels' School, Shahjahanpur <i>10th - Indian Certificate of Secondary Education (I.C.S.E)</i>	2021 Percentage - 86

Experience

Product Developer Intern – Meetmux @ Altrodav Pvt. Ltd. <i>Backend Development</i>	May 2026 – July 2026 Bengaluru, India
- Contributed to the development of a production-grade backend architecture focused on scalability, maintainability, fault isolation, and reliable inter-service communication. - Developed a scalable microservices ecosystem using NestJS and Nx Monorepo, enabling efficient service orchestration and low-latency communication through gRPC. - Standardized service-to-service communication using Protocol Buffers (Protobuf), eliminating schema mismatches and drastically minimizing network overhead in a distributed environment. - Implemented Redis caching and integrated BullMQ for robust asynchronous background job processing, improving API response times and ensuring reliable message queue management.	

Projects

NexusEd – AI-Powered E-Learning Platform NestJS, PostgreSQL, Prisma, Redis, RabbitMQ, gRPC, GenAI/RAG	2026
- Architected a scalable microservices-based e-learning platform using NestJS, gRPC, PostgreSQL and RabbitMQ-based event-driven communication, enabling decoupled and asynchronous processing across services. - Engineered an AI/RAG learning pipeline for transcript processing, semantic retrieval and contextual course Q&A, with automated chapter and quiz generation. - Implemented distributed backend workflows using Redis caching, asynchronous workers and object storage for scalable media processing, content delivery and learner workflows.	
Frndz Chat – Video Calling & Real-time Chat App MERN, GetStream API, Tailwind CSS	2025
- Collaboratively built a full-stack real-time chat and video calling app using the MERN stack and GetStream API. - Implemented JWT authentication, friend requests, and onboarding flows with MongoDB and TanStack Query. - Added in-app notifications, and protected routes gated on onboarding status.	

ACHIEVEMENTS

- Selected for Amazon ML Summer School '26.
- Specialist on Codeforces (max. Rating, 1439).
- Globally ranked 65 among 14,000+ participants in CodeChef (Starters 188).
- Secured 6th position out of 200+ participants in Algo Elites T3, a competitive programming contest held at MNNIT.
- Secured 8th position out of 300+ teams in CodeStart 8.0, a team-based competitive programming contest.

Skills and Expertise

Languages: C, C++, JavaScript, Python
Backend: Node.js, NestJS, Express.js, TypeScript, REST APIs, gRPC, Microservices, Redis
Databases: PostgreSQL, MongoDB, Prisma ORM
Core Subjects: Data Structures, Algorithms, OOP, Operating Systems, DBMS, Computer Networks
Tools & Technologies: Git, GitHub, Postman, Sublime Text, VS Code

CODING PROFILES

LeetCode (Rated. Knight) | Codeforces (Rated. Specialist) | CodeChef (Rated. 3-Star)

Position of Responsibility

- Member, **Badminton Club, MNNIT-A** – Participated in college tournaments and club training. Oct 2023 -Jan 2025
- Member, **Cricket Club, MNNIT-A** – Actively involved in practice sessions and match coordination. Oct 2023- Jan 2025
